

Rosemont High School

WASC Visiting Committee Parent Night

Rosemont parents and community members, please join us Sunday afternoon to meet and greet the WASC visiting committee.

Rosemont's accreditation process with ACS Western Association of Schools and Colleges.

Overview

WASC accreditation is a vital school improvement process that lays the foundation for quality education. It involves a comprehensive review of the school's mission, faculty qualifications, curriculum, and much more. This process occurs every six years, culminating in a visit from the WASC committee to evaluate the school's progress and future goals. During this time, the visiting committee will meet directly with parents to hear their perspectives on how the school operates and learn about their experiences. Your involvement is crucial in shaping long-term plans and ensuring ongoing success!

Summary

Date	Feb 2, 2025
Time	4:00 pm
Location	Rosemont library (refreshments will be provided), 9594 Kiefer Blvd, Sacramento, CA 95827
Importance of WASC	<ul style="list-style-type: none"> ● Ensures Quality Education: WASC accreditation guarantees the school meets high standards for teaching and learning. ● Supports Continuous Improvement: It helps the school identify strengths and areas for growth to better serve students. ● Involves Parent Voices: Parents play a key role in sharing experiences and providing feedback during the process. ● Validates School Efforts: A visiting committee of experts reviews the school's progress and future plans. ● Builds Trust and Credibility: Accreditation ensures the school is recognized for its commitment to excellence by colleges and the community.
Who is the WASC Visiting Committee?	The WASC Committee is a team of education professionals who visit the school as part of the accreditation process. Their role is to review the school's programs, operations, and goals to ensure they meet established standards for quality education. The committee gathers input from staff, students, and parents, observes the school in action, and provides feedback to guide future improvements. Their work helps validate the school's efforts and supports long-term success.
